Gut publishes original papers and reviews concerned with practice and research in the field of gastroenterology. The field is that of alimentary, hepatic, or pancreatic disease, and papers may cover the medical, surgical, radiological, or historical aspects. They may also deal with the basic sciences concerned with the alimentary tract, including experimental work. A case report will be accepted only if it deals with a clinical problem which has been studied in detail and the resulting data provide material for further research.

COMMUNICATIONS Two copies of papers and figures should be addressed to the Editor, *Gut*, BMA House, Tavistock Square, London WC1H 9JR. Papers are accepted only on the written understanding, signed by all authors, that they are not published elsewhere without previous sanction of the Editorial Committee, and that all authors agree to publication in *Gut*. Manuscripts should follow the Vancouver conventions (see *Br Med J* 1979; 1: 532-5. *Gut* 1979; 20: 651-2). They should be in double-spaced typewriting on one side of the paper only. On the paper the name of the author should appear with initials (or distinguishing first name) only, and the name and address of the hospital or laboratory where the work was performed. A short summary should be provided at the beginning of the paper.

ACKNOWLEDGEMENT OF MANUSCRIPTS Manuscripts will not be acknowledged unless a stamped addressed postcard or international reply coupon is enclosed.

ILLUSTRATIONS *Photographs* Unmounted photographs on glossy paper should be provided. *Diagrams* These will usually be reduced to 2½ in wide. Lettering should be in either Letraset or stencil, and care should be taken that lettering and symbols are of comparable size. Illustrations should not be inserted in the text, they should be marked on the back with Figure numbers, title of paper, and name of author. All photographs, graphs, and diagrams should be referred to as Figures and should be numbered consecutively in the text in Arabic numerals. The legends for illustrations should be typed on a separate sheet. *Tables* Tables should be numbered consecutively in the text in Arabic numerals and each typed on a separate sheet.

ETHICS Ethical considerations will be taken into account in the assessment of papers (see the Medical Research Council's publications on the ethics of human experimentation, and the World Medical Association's code of ethics, known as the Declaration of Helsinki (see *Br Med J* 1964; 2:177)).

SI UNITS All measurements except blood pressure are expressed in SI units. In the text they should be followed by traditional units in parentheses. In tables and illustrations value are given in SI units, but a conversion factor must be supplied. For general guidance on the

International System of Units and some useful conversion factors, see *The SI for the Health Professions* (WHO, 1977). **NB: Such conversion is the responsibility of the author.**

REFERENCES These follow the Vancouver system - that is, references numbered consecutively in the text and listed numerically with titles abbreviated in the style of *Index Medicus, Standard journal article* - (list all authors when six or less; when seven or more, list first three and add *et al*): James A. Joyce B. Harvey T. Effect of long-term cimetidine. *Gut* 1979; 20: 123-4. **NB: Accurate punctuation is essential.**

CORRECTIONS other than printers' errors may be charged to the author.

REPRINTS Twenty-five reprints will be supplied free of charge. Further reprints will be available on payment of the necessary costs; the number of reprints required should be sent to the Publishing Manager on the form provided with the proof.

NOTICE TO ADVERTISERS Application for advertisement space and for rates should be addressed to the Advertisement Manager, *Gut*, BMA House, Tavistock Square, London WC1H 9JR.

NOTICE TO SUBSCRIBERS *Gut* is published monthly. The annual subscription rates are available on request to the Subscription Manager, *Gut*, BMA House, Tavistock Square, London WC1H 9JR. NEW FROM HEINEMANN MEDICAL BOOKS

Gastroenterology

Integrated Clinical Science

Edited by Peter F Jones, Peter W Brunt & N Ashley G Mowat

The seventh title in Heinemann's new undergraduate series which has been well-received by teaching hospitals and medical press all over the world:

'... anatomy, physiology, biochemistry and pathology are all graciously interwoven with clinical reality, enhancing both the academic and practical sides of medicine and increasing the level of interest and ease of understanding.' — *Cardiology In Practice*

'... can only make learning a pleasure.' — *British Book News*

'The presentation is superb with great clarity and plenty of good diagrams and pictures.' — *BJHM*

'The general concept is excellent, and a generation of medical students will be happier and better informed by such an approach.' — *BMJ*

Gastroenterology is highly illustrated with 2-colour diagrams. It has 400 pages and costs £12.50.
