SHIRLEY McGEALEY
(Technical Editor)

Gut publishes original papers and reviews concerned with practice and research in gastroenterology. The field is that of basic science and physiology pertaining to the alimentary tract, the liver and pancreas and that of alimentary, hepatic, biliary or pancreatic disease. Papers may deal with medical, surgical, or epidemiological aspects or with imaging. A case report will be accepted only if it deals with a clinical problem which has been studied in detail and the resulting data provide material for further research. Letters dealing with matters arising from articles published in *Gut*, or with topics of general professional interest are encouraged, but the correspondence column should not be used for publication of original data.

COMMUNICATIONS Two copies of the manuscript and figures should be addressed to the Editor, *Gut*, BMA House, Tavistock Square, London WC1H 9JR, UK. Manuscripts should follow the Vancouver conventions (see *Br Med J* 1979; 1: 532-5. *Gut* 1979; 20: 651-2). They should be in double-spaced typewriting on one side of the paper only. On the title page the name of the author should appear with initials (or distinguishing first name) only, and the name and address of the hospital or laboratory where the work was performed. A short summary should be provided at the beginning of the paper. Excessive use of abbreviations is discouraged. Papers are accepted only on the written understanding, signed by all authors, that the data have not been published elsewhere in whole or in part and that all the authors agree to publication in *Gut*; previous publication in abstract form must be disclosed in a footnote. Papers must not be published elsewhere without previous sanction of the Editorial Committee.

ACKNOWLEDGEMENT OF MANUSCRIPTS Manuscripts will not be acknowledged unless a stamped addressed postcard, or an international reply coupon is enclosed.

ILLUSTRATIONS *Photographs* Unmounted photographs on glossy paper should be provided. *Diagrams* These will usually be reduced to 2¾ in wide. Lettering should be in either Letraset or stencil, and care should be taken that lettering and symbols are of comparable size. Illustrations should not be inserted in the text, they should be marked on the back with Figure numbers, title of paper, and name of author. All photographs, graphs, and diagrams should be referred to as Figures and should be numbered consecutively in the text in Arabic numerals. The legends for illustrations should be typed on a separate sheet. *Tables* Tables should be numbered consecutively in the text in Arabic numerals and each typed on a separate sheet.

ETHICS Ethical considerations will be taken into account in the assessment of papers (see the Medical Research Council's publications on the ethics of human experimentation, and the World Medical Association's code of ethics, known as the Declaration of Helsinki (see *Br Med J* 1964; 2: 177)).

SI UNITS All measurements except blood pressure are expressed in SI units. In the text they should be followed by traditional units in parentheses. In tables, and illustrations values are given in SI units, but a conversion factor must be supplied. For general guidance on the International System of Units and some useful conversion factors, see *The SI for the Health Professions* (WHO, 1977). **NB: Such conversion is the responsibility of the author.**

REFERENCES These follow the Vancouver system - that is, references numbered consecutively in the text and listed numerically with titles abbreviated in the style of *Index Medicus*, *Standard journal article* - (list all authors when six or less; when seven or more, list first three and add *et al*): James A, Joyce B, Harvey T. Effect of long-term cimetidine. *Gut* 1979; 20: 123-4. **NB: Accurate punctuation is essential.**

CORRECTIONS other than printers' errors may be charged to the author.

REPRINTS Twenty five reprints will be supplied free of charge. Further reprints will be available on payment of the necessary costs; the number of reprints required should be sent to the Publishing Manager on the form provided with the proof.

NOTICE TO ADVERTISERS Application for advertisement space and for rates should be addressed to the Advertisement Manager, *Gut*, BMA House, Tavistock Square, London WC1H 9JR.

NOTICE TO SUBSCRIBERS *Gut* is published monthly. The annual subscription rates are £77 inland and £89 overseas (including the USA). Orders should be sent to the Subscription Manager, *Gut*, BMA House, Tavistock Square, London WC1H 9JR. Orders can also be placed with any leading subscription agent or bookseller. (For the convenience of readers in the USA subscription orders, with or without payment, can also be sent to: *British Medical Journal*, Box 560B, Kennebunkport, Maine 04046. All enquiries, however, must be addressed to the Publisher in London.) All enquiries regarding air mail rates and single copies already published should be addressed to the Publisher in London.

Multi-Centre Course in Advanced Gastroenterology

3-21 November 1986

This course offers a unique opportunity to visit eight major Gastroenterology units in London over a three-week period. The aims of the course are to provide lectures and clinical demonstrations for doctors with a special training or interest in gastroenterology and to provide an insight into the activities of units specialising in diseases of the liver, biliary system, pancreas and gastrointestinal tract. There is ample opportunity for discussion between course members and leading experts in medical, surgical, endoscopic and radiological aspects of gastroenterology.

Fee: £295.00

Enquiries and application forms from the Courses Department, British Postgraduate Medical Federation, 33 Millman Street, London WC1N 3EJ. Telephone: 01-831 6222, extension 38 or 39. Early application is recommended to ensure a place on this course.

Diagnostic Liver and Gastrointestinal Pathology

13-17 October 1986

A week long course in the histopathology of the liver and luminal gastrointestinal tract, designed for pathologists who report such material professionally, and for gastroenterologists who are interested in the histological approach to diagnosis. The course will consist of lectures, demonstrations and practical microscopy sessions.

All major problems will be covered, including: the interpretation of gastric, small intestinal and colonic biopsies; neoplasms of the stomach and colon; inflammatory bowel disease; coeliac disease; endocrine tumours; lymphomas; the interpretation of liver biopsies; vascular and ductal lesions and their effects; viral diseases; chronic active liver diseases; toxic liver damage; liver tumours.

Course teachers include:

Professor P Isaacson, University College Medical School, London
Dr J Jass, St Mark's Hospital, London
Professor J Polak, Royal Postgraduate Medical School, London
Dr A Price, Northwick Park Hospital, Harrow
Professor P Scheuer, Royal Free Hospital Medical School, London
Professor H K Weinbren, Royal Postgraduate Medical School, London
Professor N A Wright, Royal Postgraduate Medical School, London

Course organisers:

Dr A Al-Nafussi, Professor K H Weinbren and Professor N A Wright

Course fee: £265 including catering
