Subject index

5′ non-translated region, Association between severity of type A hepatitis and nucleotide variations in the 5′ non-translated region of hepatitis A virus RNA: strains from fulminant hepatitis have fewer nucleotide substitutions, 82

5-aminoimidazole carboxyl acid, Which S-ASA?, 548

5-HT agonist, Pharmacotherapy, 196

Serotonergic modulation of visceral sensation: upper gastrointestinal tract, 177

5-HT antagonist, Pharmacotherapy, 196

Serotonergic modulation of visceral sensation: upper gastrointestinal tract, 177

α2 adrenoceptor agonists Pharmacotherapy: non-serotonergic mechanisms, 187

α2 adrenoceptor agonists Pharmacotherapy, 196

ABCG5/8, Comparison of the hepatic clearances of campesterol, sitosterol, and cholesterol in healthy subjects suggests that efflux transporters controlling intestinal sterol absorption also regulate biliary secretion, 860

acetaldehyde, Cocarcinogenic effects of alcohol in the gastrointestinal tract, review, 132

acid secretion, Impact of acid secretion, gastritis, and mucus thickness on gastric transfer of antibiotics in rats, 490

acid suppression, Upper gastrointestinal bleeding and surrogate end points: letter, 140

Upper gastrointestinal bleeding and surrogate end points: letter, 140

acromegaly, Screening guidelines for colorectal cancer and polyps in patients with acromegaly, y13

activation peptide, Serum levels of procarboxypeptidase B and its activation peptide in patients with acute pancreatitis and non-pancreatic diseases, 229

acupuncture, Acupuncture for gastrointestinal disorders: myth or magic, 617

acute cholangitis, A randomised controlled trial of endoscopic sphincterotomy in acute cholangitis without common bile duct stones, 245

Evaluation of ERCP is important but difficult, 287

acute fatty liver of pregnancy, Prospective study of liver dysfunction in pregnancy in Southwest Wales, 876

acute hepatitis, Association between severity of type A hepatitis and nucleotide variations in the 5′ non-translated region of hepatitis A virus RNA: strains from fulminant hepatitis have fewer nucleotide substitutions, 82

acute pancreatitis, Pancreatic stellate cells contribute to regeneration early after acute necroizing pancreatitis in humans, 574

Serum levels of procarboxypeptidase B and its activation peptide in patients with acute pancreatitis and non-pancreatic diseases, 229

acute phase proteins, Overexpression of α1-acid glycoprotein in transgenic mice leads to sensitisation to acute colitis, 398

adenomatous polyposis coli, Intraductal papillary and mucinous pancreatic tumour: a new extracellular tumour in familial adenomatous polyposis, 446

adenomatous polyps, Effect of toluate supplementation on mucosal cell proliferation and inflammation in high risk patients for colon cancer, 195

adhesion molecules, High frequency of autoantibodies in patients with primary sclerosing cholangitis that bind biliary epithelial cells and induce expression of CD44 and production of interleukin 6, 120

afferent nervous system, Visceral perception: sensory transduction in visceral afferents and nutrients, 111

age, Current guidelines fail young patients with oesophagegastric cancer, 296

airway protection, Effect of chronic and acute cigarette smoking on the neoglomerulotubular closure reflex, 771

alcohol, Alcohol abuse and the risk of pancreatic cancer, 236

Serum levels of procarboxypeptidase B and its activation peptide in patients with acute pancreatitis and non-pancreatic diseases, 229

alcohol, Reversal of alcohol and alcohol abuse, 611

aliciaforsen, Double blind, placebo controlled trial of the remission inducing and steroid sparing properties of an ICAM-1 antisense oligonucleotide, alicaforsen (ISIS 29002), in active steroid dependent Crohn’s disease, 30

allergy, Aberrant composition of gut microbiota of allergic infants: a prospective study, 236

amylose, Serum levels of procarboxypeptidase B and its activation peptide in patients with acute pancreatitis and non-pancreatic diseases, 229

anisomycin, Is anorectal endosonography valuable in dyschezia?, 695

anorectal endosonography, Is anorectal endosonography valuable in dyschezia?, 695

antero cingulate nucleus, Role of the brain and sensory pathways in gastrointestinal sensory disorders in humans, 129

antibiotics, Impact of acid secretion, gastritis, and mucus thickness on gastric transfer of antibiotics in rats, 490

antiendomysial antibodies, Invasive or non-invasive methods for the diagnosis of subclinical coeliac disease?, 455

antigen presenting cell, T-bet and mucosal T11 responses in the gastrointestinal tract, 301

antireflux surgery, Laparoscopic fundoplication is the treatment of choice for gastro-oesophageal reflux disease, 468

Laparoscopic fundoplication is the treatment of choice for gastro-oesophageal reflux disease, 472

anti-sense oligonucleotides, ICAM-1 and VCAM-1 antisense oligonucleotides attenuate in vivo leukocyte adherence and inflammation in rat inflammatory bowel disease, 529

anti-tissue transglutaminase antibodies, Anti-tissue transglutaminase antibodies in type A hepatitis and nucleotide variations in the 5′ non-translated region of hepatitis A virus RNA: strains from fulminant hepatitis have fewer nucleotide substitutions, 82

anti-inflammatory cytokine, Pharmacotherapy, 196

appetite, Weight loss and glucocorticoids, 971

arterial blood volume, Terlipressin and arterial blood volume after partial gastrectomy for tense ascites in cirrhosis, 735

ascites, Renal tubular events following passage from the supine to the standing position in patients with compensated liver cirrhosis: loss of tubuloglomerular feedback, 736

asymptomatic carrier, Histological features and HLA class II alleles in hepatitis C virus chronically infected patients with persistently normal alanine aminotransferase levels, 585

atopic gastritis, Hepatocellular carcinoma: is current therapy really altering outcome?, 459

Impact of Helicobacter pylori infection and mucosal atrophy on gastritis lesions in patients with familial adenomatous polyposis, 485

Risk of gastric carcinoma in patients with atrophic gastritis and intestinal metaplasia, 899

Timing and sampling in surveillance of premalignant gastric lesions, 896

autoimmune disease, Coeliac disease and the risk of autoimmune diseases, 897

Coeliac disease and the risk of autoimmune disorders, 897

autoimmune disorders, Gluten exposure and risk of autoimmune disorders: letter, 140

autoimmune hepatitis, Establishment of standardised SLA/LP immunoassays: specificity for autoimmune hepatitis, worldwide occurrence, and clinical characteristics, 259

autoimmune liver diseases, High frequency of autoantibodies in patients with primary sclerosing cholangitis that bind biliary epithelial cells and induce expression of CD44 and production of interleukin 6, 120

autoimmune pancreatitis, Autoimmune related pancreatitis: a review, 1

autoimmune related pancreatitis, High frequency of autoantibodies in patients with primary sclerosing cholangitis that bind biliary epithelial cells and induce expression of CD44 and production of interleukin 6, 120

autoimmune related pancreatitis, Autoimmune related pancreatitis: a review, 1

autonomic innervation, Slow transit constipation: more than one disease?, 610

autophagocytosis, Autophagocytosis of the apical membrane in microvillus inclusion disease, 514
