EDITOR

*British Medical Journal*

GRACE WILLIAMS

(*Technical Editor*)

The object of *Gut* is to publish original papers and reviews concerned with practice and research in the field of gastroenterology. The field is that of alimentary, hepatic, or pancreatic disease, and papers may cover the medical, surgical, radiological, or historical aspects. They may also deal with the basic sciences concerned with the alimentary tract, including experimental work. The report of a single case will be accepted only if it is of sufficient interest in relation to a wider field of research.

**COMMUNICATIONS** Two copies of papers should be addressed to the Editor, *Gut*, BMA House, Tavistock Square, London, WC1H 9JR. Papers are accepted only on the understanding that they are not published elsewhere without previous sanction of the Editorial Committee. They should be in double-spaced typewriting on one side of the paper only. On the paper the name of the author should appear with initials (or distinguishing Christian name) only, and the name and address of the hospital or laboratory where the work was performed. A definition of the position held by each of the authors in the hospital or laboratory should be stated in a covering letter to the Editor. Communications should be kept short, and illustrations should be included when necessary; coloured illustrations are allowed only if monochrome will not satisfactorily demonstrate the condition. It is not desirable that results should be shown both as tables and graphs.

**ACKNOWLEDGEMENT OF MANUSCRIPTS** Manuscripts will not be acknowledged unless a stamped addressed postcard or international reply coupon is enclosed.

**ILLUSTRATIONS** Only essential Figures and Tables should be included. *Photographs* Unmounted photographs on glossy paper should be provided. Magnification scales, if necessary, should be lettered on these. Where possible, prints should be trimmed to column width (i.e. 2½ in.) *Diagrams* These will usually be reduced to 2½ in wide. Lettering should be in either Letraset or stencil, and care should be taken that lettering and symbols are of comparable size. Illustrations should not be inserted in the text, they should be marked on the back with Figure numbers, title of paper, and name of author. All photographs, graphs, and diagrams should be referred to as Figures and should be numbered consecutively in the text in Arabic numerals. The legends for illustrations should be typed on a separate sheet. *Tables* Tables should be numbered consecutively in the text in Arabic numerals and each typed on a separate sheet.

**ETHICS** Ethical considerations will be taken into account in the assessment of papers (see the Medical Research Council's publications on the ethics of human experimentation, and the World Medical Association's code of ethics, known as the Declaration of Helsinki (see *British Medical Journal* (1964), 2, 177)).

**ABBREVIATIONS** In general, symbols and abbreviations should be those used by the *Biochemical Journal*. In

any paper concerning electrolyte metabolism, it is desirable that data be calculated as mEq/l. All measurements should be expressed in SI units (see *Journal of Clinical Pathology* (1974), 27, 590-597; *British Medical Journal* (1974), 4, 490), followed by traditional units in parentheses. Such conversion is the responsibility of the author.

**REFERENCES** In the text these should follow the Harvard system—that is, name followed by date: James and Smith (1970). If there are more than two authors they should be cited as James *et al.* (1970) even the first time that they appear. The list of references should be typed in double spacing and in alphabetical order on a separate sheet. Such references should give the author's name, followed by initials and year of publication in brackets, *the title of the article quoted*, the name (in full) of the journal in which the article appeared, the volume number in arabic numerals, followed by numbers of first and last pages of article.

**REPRINTS** Twenty-five reprints will be supplied free of charge. Further reprints will be available on payment of the necessary costs; the number of reprints required should be sent to the Publishing Manager on the form provided with the proof.

**NOTICE TO ADVERTISERS** Application for advertisement space and for rates should be addressed to the Advertisement Manager, *Gut*, BMA House, Tavistock Square, London WC1H 9JR.

**NOTICE TO SUBSCRIBERS** *Gut* is published monthly. The annual subscription rate is £24.00 in the United Kingdom and the Republic of Ireland, and £27.00 [\$65.50 USA] by surface mail in all countries overseas. Payments for overseas subscriptions should be made in sterling, *ie*, £27.00, and sent by Mail Transfer—*Charges Remitter*—through a Bank to the British Medical Association. Orders can also be placed with any leading subscription agent or bookseller. (For the convenience of readers in the USA subscription orders, with or without payment, can also be sent to: *British Medical Journal*, 1172 Commonwealth Avenue, Boston, Mass. 02134. All enquiries however, must be addressed to the Publisher in London.) All enquiries regarding Air Mail rates and single copies already published should be addressed to the Publisher in London.

**COPYRIGHT** © 1976 *Gut*. This publication is copyright under the Berne Convention and the International Copyright Convention. All rights reserved. Apart from any relaxations permitted under national copyright laws, no part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means without the prior permission of the copyright owners. Permission is not, however, required to copy abstracts of papers or of articles on condition that a full reference to the source is shown. Multiple copying of the contents of the publication without permission is always illegal.

## The June 1976 Issue

### THE JUNE 1976 ISSUE CONTAINS THE FOLLOWING PAPERS

- Lithocholate metabolism during chenotherapy for gallstone dissolution. 1. Serum levels of sulphated and unsulphated lithocholates R. N. ALLAN, J. L. THISTLE, A. F. HOFMANN, J. A. CARTER, AND P. Y. S. YU
- Lithocholate metabolism during chenotherapy for gallstone dissolution. 2. Absorption and sulphation R. N. ALLAN, J. L. THISTLE, AND A. F. HOFMANN
- Evidence for the absorption of bile acids in the proximal small intestine of normo- and hyperlipidaemic subjects B. ANGELIN, K. EINARSSON, AND K. HELLSTRÖM
- Plasma oestrogens in men with chronic liver disease J. R. B. GREEN, N. A. G. MOWAT, R. A. FISHER, AND D. C. ANDERSON
- Use of caerulein with submaximal doses of secretin as a test of pancreatic function in man A. RIBET, R. TOURNUT, M. DUFFAUT, AND N. VAYSSE
- Effect of intraduodenal magnesium sulphate on pancreas and gallbladder of man J. H. B. SAUNDERS, B. THJODLEIFSSON, AND K. G. WORMSLEY
- Radiographic evaluation of pancreatico-jejunal shunts E. W. MILLER, H. I. GOLDBERG, S. B. GOLDBERG, AND H. SHAPIRO
- Electrogenic glucose absorption in untreated and treated coeliac disease N. W. READ, R. J. LEVIN, AND C. D. HOLDSWORTH
- Factors affecting the absorption of vitamin K-1 *in vitro* D. HOLLANDER AND ELENA RIM
- Relation between body weight and the gastric and intestinal handling of an oral caloric load C. JOHANSSON AND K. EKELUND
- Gastric mucosa after partial gastrectomy B. M. PULIMOOD, A. KNUDSEN, AND N. F. COGHILL
- Highly selective vagotomy plus dilatation of the stenosis compared with truncal vagotomy and drainage in the treatment of pyloric stenosis secondary to duodenal ulceration M. J. MCMAHON, M. J. GREENALL, D. JOHNSTON, AND J. C. GOLIGHER
- Proctocolitis and Crohn's disease of the colon: a comparison of the clinical course J. E. LENNARD-JONES, JEAN K. RITCHIE, AND W. J. ZOHRAH
- Fibrin thrombi, a cause of clindamycin-associated colitis? W. V. BOGOMOLETZ
- Notes and activities
- Notes on books

Copies are still available and may be obtained from the PUBLISHING MANAGER, BRITISH MEDICAL ASSOCIATION, TAVISTOCK SQUARE, LONDON, WC1H 9JR, price £2.00, including postage

## Notes and activities

### National Foundation for Ileitis and Colitis Awards

The National Foundation for Ileitis and Colitis is offering two new awards

1. *NFIC Career Development Award* These awards are open to young investigators who have finished their training and wish to enter research. The award would be up to \$25 000 per year for three years with consideration of renewal after review.

2. *NFIC Senior Fellow Award* These awards are given to qualified second year Fellows who would receive \$16 000 a year for one or two years subject to review.

The deadline for applications is 19 September 1976. Applicants will be notified by 31 December 1976, and the earliest beginning date will be 1 January 1977. All inquiries and applications should be submitted to Mr. Irwin Brod, Executive Director, NFIC, 295 Madison Avenue, New York, NY 10017, USA.

### Royal College of Pathologists

The Royal College of Pathologists is holding a symposium on 'The diffuse endocrine system and its pathology' on 19 October at 2 Carlton House Terrace, London, S.W.1., under the chairmanship of Professor I. M. P. Dawson. The symposium is open to members of the College and trainee pathologists and to workers in other disciplines connected with the subject. Details are obtainable from Assistant Secretary (Meetings), The Royal College of Pathologists, 2 Carlton House Terrace, London, SW1Y 5AF.

### Radiology of the Stomach and Small Intestine

A course on this subject is being organised by the Office of Continuing Education, Tufts University School of Medicine, and directed by Dr Harry J. Griffiths. A distinguished international faculty, including Drs Robert Paul, Arthur Clemett, Wylie Dodds, Joseph Ferrucci, Jack Wittenberg, and Basil Morson, have been invited to give an intensive course on the

radiology of the stomach and small intestine. Each area will be considered from a clinical, endoscopic, radiological, and pathological point of view. The course will be held from 25-29 October 1976, at The Copley Plaza Hotel, Boston, Massachusetts, and the registration fee is \$250.00. Details may be obtained from Mrs Emelie S. Born, Box 72, 136 Harrison Avenue, Boston, Massachusetts, USA.

### Postgraduate Courses, University of California

The University of California is offering the following postgraduate courses in 1977:

31 January-4 February: 'Computerized tomography—1977'.

5-6 March: 'Diagnostic nuclear imaging'.

7-11 March: 'Diagnostic radiology'.

12-13 March: 'A practical course in ultrasound'.

Information from Medical Education, University of California, 569 U, San Francisco, California 94143, USA.

### First South African Conference on Carcinoma of the Oesophagus

The above conference is being held in Cape Town from 26-28 January, 1977. There will be invited overseas and South African speakers, and delegates wishing to attend should write to The Secretariat S18, South African Medical Research Council, P.O. Box 70, Tygerberg, 7505, Cape Town, South Africa.

Allison (Harrow) and M. Woodruff (Edinburgh). R. W. Baldwin (Nottingham) is one of the four editors to whom manuscripts may be submitted (Cancer Research Campaign Laboratories, University Park, Nottingham, NG7 25D).

*Liver Diseases in Children* By Daniel Alagille. (Pp. 103; illustrated; 30 francs) Institut National de la Santé: Paris. 1976. This publication records an international symposium held in Paris, June 1975. The three main fields covered are immunological aspects of liver diseases; biliary acids; metabolism and pathology; surgical problems in liver metabolic diseases; and bilirubin metabolism. There were 50 participants.

*Cancer Genetics* Edited by Henry T. Lynch. (Pp. 639; illustrated. \$49.50) Charles C. Thomas: Springfield. 1975. This interesting and original publication integrates all aspects of cancer genetics including HL-A histocompatibility systems, oncogenic viruses, migrant groups, and interactions with environmental factors. Cancer of the stomach and colon are well covered.

---

## Notes on books

### *Cancer, Immunology and Immunotherapy*

This is a new journal and the first number is devoted to aspects of BCG systemic immunotherapy. With the high professional standing of its international Scientific Council, it is likely to prove of great interest to British clinicians including gastroenterologists. The representatives from Great Britain are A. C.

---

Authors who wish to have their manuscripts acknowledged are asked to enclose a stamped addressed postcard or an international reply coupon.

# Gut on MICROFICHE

Since January 1976 GUT, the Journal of the British Society of Gastroenterology, has been published in a microfiche edition simultaneously with the standard paper edition. Overseas subscribers to the microfiche edition will receive microfiches, by AIR MAIL, within days of publication. The availability of the microfiche edition should have great appeal to libraries and other readers far distant from the United Kingdom.

The microfiche produced for the British Medical Association conform to the international standard as laid down by the National Microfilm Association of America. These microfiches are produced by a step and repeat camera with duplicates produced on silver halide film for archival permanence. Each fiche measures 105mm × 148mm and can contain up to 98 images filmed at a reduction ratio of 24 × along with an eye readable title for identification. Details of microfiche volume binders are available on request.

The subscription prices for each annual volume on microfiche are as follows:

For subscribers to the paper edition      **£13·50** (U.S.A. \$27.00)

For those who do not subscribe to the      **£20·25** (U.S.A. \$41.00)  
paper edition

Volume 16, 1975, of GUT is also available on microfiche at these rates.

**Orders for the microfiche edition of GUT can be sent to:**

The Publisher, GUT, B.M.A. House, Tavistock Square, London WC1H 9JR.  
Readers in the U.S.A. can order from: BRITISH MEDICAL JOURNAL, 1172  
Commonwealth Avenue, Boston, Mass. 02134 *or through any leading  
subscription agent.*
