British Society of Gastroenterology: President 1995–96

Paul Smith was born in Harrow in north west London and was educated at The Merchant Taylor's School, Northwood.

He graduated in medicine from St Thomas's Hospital, London, where he was house physician to Professor Sharpey-Schafer and later the resident pathologist and then registrar to the Department of Metabolic Diseases.

In 1965 he went to Southampton on the St Thomas's rotation, where he met Roger Williams, and gave up metabolic diseases for the excitement of liver disease. On 1 August 1966 he moved to King's College Hospital with Roger Williams as the first research fellow on the new Liver Unit. He completed his MD on Aspects of Haemochromatosis in 1968 and then spent a year with the Department of Gastroenterology at Boston University, USA; working on fetal bilirubin metabolism with Dr Roger Lester and Dr R M Donaldson.

In 1970 Paul Smith was appointed senior medical registrar at University College Hospital with Professor John Lennard-Jones, Dr J F Stokes, and Lord Rosenheim, with weekly clinical assistant sessions at St

Mark's Hospital. In 1972 he was appointed to The University of Wales College of Medicine as senior lecturer in Medicine with consultant status and in 1978 became an NHS consultant at Llandough Hospital, Penarth and at The University Hospital of Wales.

In Cardiff, his principal research interests have been in the management of bleeding oesophageal varices and the endoscopic therapy of achalasia. In addition the presence of a local chemical factory at Barry has allowed him to study the relation between exposure to vinyl chloride monomer and the development of angiosarcoma of the liver.

In his spare time Paul Smith is a hard working, but not yet a talented gardener and in the summer plays light hearted cricket with the Myocardial Cricket Club. He is also a member of the other MCC and can only be found at Lords during test matches.

Paul Smith is married with two children. His wife is Icelandic and a consultant cytopathologist at Llandough Hospital.

The BSG welcomes its new President – a gregarious, good humoured bon viveur.

History of Gastroenterology

The Wellcome Institute for the History of Medicine and the British Society of Gastroenterology will hold a symposium on the History of Gastroenterology on Friday 20 October 1995 in the Auditorium of the Wellcome Building, 183 Euston Road, London NW1.

Speakers include Professor Roy Porter, Dr Denis Gibbs, Dr Helen Power, Dr Gordon Cook, Dr Hugh Baron, Professor Harold Ellis, Professor J A Walker-Smith, Professor Sir Christopher Booth and Professor Ian Bouchier.

Further information from Professor W F Bynum, Wellcome Institute for the History of Medicine, 183 Euston Road, London NW1 2BE. Tel: 0171 611 8888; Fax: 0171 611 8545.

I would have preferred to find the references (some 3600 of them) after each chapter rather than all lumped together in 103 pages at the end of the book. It would have been easier to identify the overall bibliography for any one drug.

Among all the good things, hepatotoxicity due to unorthodox and particularly herbal remedies is clearly covered. Physicians often fail to question a patient on this aspect.

Hepatic granulomas are found in up to 10% of liver biopsy specimens. Drugs are believed to be responsible for up to one third where the cause is not evident. Twenty five foreign compounds that have been incriminated in hepatic granulomatous disease are tabulated. The authors rightly emphasise that in only a few can causality be established. The more important include allopurinol, carbamazepine, phenylbutazone, phenytoin, sulphonamides, and quinidine. The physician must be cautious in attributing hepatic granulomas to a drug reaction until the many other possibilities have been excluded.

The book is very well produced and easy to handle. Tables and figures are particularly clear and useful. It is an essential tool for hepatologists and gastroenterologists and should be available for reference in every medical library.

SHEILA SHERLOCK

NOTES

Sir Francis Avery Jones BSG Research Award 1996

Applications are invited by the Education Committee of the British Society of Gastroenterology who will recommend to Council the recipient of the 1996 Award. Applications (**eighteen copies**) should include:

(1) A manuscript (2 A4 pages *only*) describing the work conducted.

(2) A bibliography of relevant personal publications.

(3) An outline of the proposed content of the lecture, including title.

(4) A written statement confirming that all or a substantial part of the work has been personally conducted in the UK or Eire.

Entrants must be 40 years or less on 31 December 1996 but need not be a member of the BSG. The recipient will be required to deliver a 40 minute lecture at the Spring meeting of the Society in 1996. Applications (**eighteen copies**) should be made to: The Honorary Secretary, BSG, 3 St Andrews Place, London NW1 4LB by 1 December 1995.

1995, in Pécs, Hungary. Further information from: Professor Dr G Mózsik, First Department of Medicine, Medical University of Pécs, PO Box 99, H-7643 Pécs, Hungary. Fax: 36-72-327-660.

Travel Fellowship

The Pancreatic Society awards annually a Travel Fellowship worth £1500 to young researchers in any field of pancreatology, to enable him or her to visit laboratories and hospitals in another country to further the Fellow's education. Applicants need not be a member of the Society.

Applications are invited from clinicians in any discipline, or basic scientists, who have demonstrated an interest and ability in pancreatic research. The purpose of the Fellowship is to visit other centres, and is not primarily designed to support research. Travel solely for the purpose of attending a conference is not supported. The closing date for applications will be 31 October 1995. Applicants should submit a curriculum vitae and a proposed itinerary. Selection will be based on an interview to be held during the Society's annual meeting on 24 November 1995. Further details from the Secretary: Mr Colin Johnson, University Surgical Unit, F Level, Centre Block, Southampton General Hospital, Tremona Road, Southampton SO16 6YD.

CORRECTION

An error occurred in the paper by Dr Friess and others (*Gut* 1995; 36: 771-7). The legends to Figures 2 and 3 have been transposed.

Gastrointestinal pharmacology

The International Union of Pharmacology (IUPHAR), Gastrointestinal Pharmacology Section, will hold a symposium on Biochemical Pharmacology as an Approach to Gastrointestinal Diseases on 12-14 October

Liver disease

The Sixth Manchester Liver Symposium will be held on 6 October 1995. Full programme and registration details are available from: Dr T W Warnes, Liver Unit, Manchester Royal Infirmary, Oxford Road, Manchester M13 9WL. Tel: 0161-276 4316.

Gut

Journal of the British Society of Gastroenterology
which is a registered charity

Gut publishes original papers, short rapid communications, leading articles, and reviews concerned with all aspects of the scientific basis of diseases of the alimentary tract, liver, and pancreas. Case reports will only be accepted if of exceptional merit. Letters related to articles published in *Gut* or with topics of general professional interest are welcomed. Authors should include the names and addresses of four experts whom the authors consider suitable to peer review their work.

COMMUNICATIONS Two copies of the manuscript and figures should be addressed to the Editor, *Gut*, BMA House, Tavistock Square, London WC1H 9JR, UK. Manuscripts should follow the Vancouver conventions (see *BMJ* 1979; i: 532-5. *Gut* 1979; 20: 651-2). They should be in double spaced typewriting on one side of the paper only. The title page should include the name of the author with initials or distinguishing first name only, and the name and address of the hospital or laboratory where the work was performed. **The paper must include a precise summary of the work of less than 200 words, which should be divided into six sections headed background, aims, patients (or subjects), methods, results, and conclusions. Keywords (maximum six) should be included.** Use of abbreviation is discouraged. Short rapid communications should not be more than 10 double spaced A4 pages including references, tables, and figures. These papers will be subject to peer review in the normal way. The interval from acceptance to publication will be much shorter. A covering letter should include a request for the paper to be considered in this category with valid reasons for that request. A separate covering letter signed by all authors must state that the data have not been published elsewhere in whole or in part and that all authors agree to publication in *Gut*. Previous publication in abstract form must be disclosed in a footnote. Papers must not be published elsewhere without prior permission of the Editorial Committee. If requested, authors shall produce the data upon which the manuscript is based for examination by the editor.

ACKNOWLEDGEMENT OF MANUSCRIPTS Manuscripts will only be acknowledged if an addressed postcard is enclosed.

ILLUSTRATIONS Photographs Unmounted photographs on glossy paper should be provided. Illustrations should not be inserted in the text but marked on the back with the figure numbers, title of paper and name of author. All photographs, graphs, diagrams should be referred to as figures and should be numbered consecutively in the text in Arabic numerals. The legends for illustrations should be typed on a separate sheet.

ETHICS Ethical aspects will be considered in the assessment of papers (see the Medical Research Council's publications on the ethics of human experimentation, and the World Medical Association's code of ethics, known as the Declaration of Helsinki (see *BMJ* 1964; ii: 177)).

SI UNITS All measurements except blood pressure are expressed in SI units. In tables and illustrations values

are given in SI units. For general guidance on the International System of Units and some useful conversion factors, see *The SI for Health Professions* (WHO, 1977). **NB: Such conversion is the responsibility of the author.**

REFERENCES These follow the Vancouver system - that is, references numbered consecutively in the text and listed numerically with journal titles abbreviated in the style of *Index Medicus*, *Standard journal article*. List up to six authors, then add *et al.*

CORRECTIONS other than printers' errors may be charged to the author.

REPRINTS Reprints will be available on payment of the necessary costs; the number of reprints required should be sent to the Publishing Manager on the form provided with the proof.

NOTICE TO ADVERTISERS All applications for advertisement space and rates should be addressed to the Advertisement Manager, *Gut*, BMA House, Tavistock Square, London WC1H 9JR.

NOTICE TO SUBSCRIBERS *Gut* is published monthly. The annual subscription rates are £191.00 (USA \$309.00). Reduced subscriptions of £79.00 available to trainees for one year (direct only). Orders should be sent to the Subscription Manager, *Gut*, BMA House, Tavistock Square, London WC1H 9JR. Orders can also be placed with any leading subscription agent or bookseller. (For the convenience of readers in the USA subscription orders, with or without payment, can be sent to: *British Medical Journal*, PO Box 408, Franklin, MA 02038, USA. All enquiries, however, must be addressed to the Publisher in London.) Subscribers may pay for their subscriptions by Access, Visa, or American Express by quoting on their order the credit or charge card preferred together with the appropriate personal account number and the expiry date of the card. All overseas copies of the journal are sent by accelerated surface post. If required, full air mail rates and enquiries for single copies already published should be addressed to the Publisher in London.

COPYRIGHT © 1995 *Gut*. This publication is copyright under the Berne Convention and the International Copyright Convention. All rights reserved. Apart from any relaxations permitted under national copyright laws, no part of the publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means without the prior permission of the copyright owners. Permission is not, however, required to copy abstracts of papers or articles on condition that a full reference to the source is shown. Multiple copying of the contents of the publication without permission is always illegal.

Second class postage paid, Rahway NJ. Postmaster: send address changes to: *Gut*, c/o Mercury Airfreight International Ltd Inc, 2323 Randolph Avenue, Avenel, NJ 07001, USA. ISSN 0017-5749.
