Accepted abstracts

This abstract book has been produced electronically by CONIFER™, Excerpta Medica Medical Communications b.v. and is also available as a fully searchable service at the Congress and on CD-ROM.

Every effort has been made to faithfully reproduce the abstracts as submitted. However, no responsibility is assumed by the organisers for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein. Because of the rapid advances in the medical sciences, we recommend that independent verification of diagnoses and drug dosages should be made.

Preface

Dear colleagues and friends,

It is a pleasure for us to welcome you to Copenhagen.

The International Workshop on Gastrointestinal Pathology and *Helicobacter pylori* is the annual meeting of the European *Helicobacter pylori* Study Group, which was founded 10 years ago by scientists interested in studying this infection. During these 10 years, the annual meetings have been transformed from traditional workshops to international congresses. Nevertheless, the purpose has always been to ensure a high scientific standard, to promote and inspire scientists to continue and increase the progress of knowledge within *Helicobacter* infection.

Enclosed are the abstracts accepted for this meeting. All abstracts will be presented as posters during the entire meeting. The abstracts as well as the poster area have been divided into 12 sections. Eight correspond to the 8 workshops (1A to 4A and 1B to 4B), and from among these the workshop presentations have been selected. The abstracts that do not belong to a workshop are divided into four sections (1C to 4C) according to subject. In addition the 10 abstracts for oral plenary presentation are in a separate section (oral presentations) as well as in the section where they belong and are presented as posters.

We wish you a pleasant meeting.

On behalf of the European *Helicobacter pylori* Study Group and the local Organizing Committee,

Leif Percival Andersen
