Volume 66 Issue 9 | GUT September 2017

Commentaries

1537 Novel insight in diarrhoea-predominant IBS: miRNAs moderate barrier function
M M Wouters

1539 Challenges in the hepatic histopathology in non-alcoholic fatty liver disease
E M Bruton, D E Kleiner

1540 Selective LOX12 inhibition: potent antibiofilm effects in ongoing fibrosis and fibrosis regression
F Magdaleno, J Trebicka

Oesophagus

1542 Hypoxia-inducible factor-2α plays a role in mediating oesophagitis in GORD
X Hao, A T Agoston, K B Dhanvar, D J Capper, X Zhang, C Yu, E Cheng, Q Zhang, T H Pham, U K Tamirat, R K Brucik, D H Wang, R D Odze, S J Spechler, R F Souza

Stomach

1555 The gastric acid pocket is attenuated in H. pylori infected subjects
D R Mitchell, M H Derakhshan, A A Wirz, C Orange, S A Ballantyne, J J Going, K E L McColl

Coeliac disease

1563 The clinical and phenotypical assessment of seronegative villous atrophy: a prospective UK centre experience evaluating 200 adult cases over a 15-year period (2000–2015)
I Aziz, M F Peerally, J-H Barnes, V Kanadasamy, J C Whiteley, D Partridge, P Vergani, S S Cross, P H Green, D S Sanders

Inflammatory bowel disease

1573 Proteomic analysis of ascending colon biopsies from a paediatric inflammatory bowel disease inception cohort identifies protein biomarkers that differentiate Crohn’s disease from UC
A E Saur, S A DeBoe, Z Ning, C-K Chiang, X Zhang, W Montawee, R Singleton, E I Benchimol, M Wen, D R Mack, A Sinzetti, D Figeys

Experimental colitis

1584 The TRPA1 ion channel is expressed in CD4+ T cells and restrains T-cell-mediated colitis through inhibition of TRPV1
S Bertho, Y Ackr-Nouake, J Lee, P R de Jong, P Kim, T Han, T Yu, K To, N Takahashi, B S Boland, J T Choong, S B Ho, S Herdman, M Corr, A Franco, S Sharma, H Dong, A N Akpom, F Faz

Neurogastroenterology

1597 miR-16 and miR-125b are involved in barrier function dysregulation through the modulation of claudin-2 and cingulin expression in the jejunum in IBS with diarrhoea

Gut microbiota

1623 Antibiotic-induced gut microbiota disruption during human endotoxemia: a randomised controlled study
J M Lawelma, D R Crandonden, C Belzer, A F De Vos, W M de Vos, T van der Poll, W J Wiersinga

Colon

1631 Increased uptake and improved outcomes of bowel cancer screening with a faecal immunochromatographic test: results from a pilot study within the national screening programme in England
S Moss, C Mathews, T J Day, S Smith, H E Szeman, J Snowball, S P Halloran

1645 RNF43 germline and somatic mutation in serrated neoplasia pathway and its association with BRAF mutation

## Contents

### Incidence of and survival after subsequent cancers in carriers of pathogenic MMR variants with previous cancer: a report from the prospective Lynch syndrome database

### Pancreas

**1657** GATA6 regulates EMT and tumour dissemination, and is a marker of response to adjuvant chemotherapy in pancreatic cancer

**1677** Digital next-generation sequencing identifies low-abundance mutations in pancreatic juice samples collected from the duodenum of patients with pancreatic cancer and intraductal papillary mucinous neoplasms

### Hepatology

**1688** Systematic review of bariatric surgery liver biopsies clarifies the natural history of liver disease in patients with severe obesity

**1697** Selective targeting of lysyl oxidase-like 2 (LOXL2) suppresses hepatic fibrosis progression and accelerates its reversal

### Recent advances in clinical practice

**1709** Feeding the microbiota: transducer of nutrient signals for the host

F Shanahan, D van Sinderen, P W O’Toole, C Stanton

### JournalScan

**1718** GI highlights from the literature

MH McLean

### PostScript

**1721** Letters

### Editor’s quiz: GI snapshot

**1622** When radiology meets gastroenterology: an unusual impact

G E Gurvits

### Correction

**1730** Erratum: The rs2296651 (S267F) variant on NTCP (SLC10A1) is inversely associated with chronic hepatitis B and progression to cirrhosis and hepatocellular carcinoma in patients with chronic hepatitis B
