

Correction: *Wnt signalling modulates transcribed-ultraconserved regions in hepatobiliary cancers*

Carotenuto P, Fassan M, Pandolfo R, *et al.* Wnt signalling modulates transcribed-ultraconserved regions in hepatobiliary cancers. *Gut* 2017;66:1268-1277.

The legend of Figure 6D was corrected after publication to clarify the intentional use of reference images of untransfected cells (labelled “untreated”) to show baseline caspase 3 staining in the absence of transfection.
